

*Purchasing books including DVDs, Audiobooks, etc.?
Compete your order once through FEDLINK and
lock in up to 5 years with a variety of vendors.*

FEDLINK has just awarded 17 new books contracts! (See the attached list.)

Using an Indefinite Delivery Indefinite Quantity (IDIQ) contract, FEDLINK handles your competition and awards a contract you can use to place orders directly with publishers and book jobbers who can handle your requirements. With a FEDLINK IDIQ, you will also know that your agency is compliant with the Federal Acquisition Regulation (FAR) **for a one-year base contract plus four option years!**

Here's how!

➤ **Create an InterAgency Agreement with FEDLINK**

You will need to request an interagency agreement (IAA) between your agency and FEDLINK at <http://www.loc.gov/flicc/onlinedoc/preg06.html>.

➤ **Transfer funds to your FEDLINK Account**

Place your funds in our pre-award book account (BZ) for your competition.

➤ **Prepare for your competition**

To compete your future purchase according to the FAR, FEDLINK needs your order requirements. Think big about your current order for this year and beyond! Don't worry about changes -- FEDLINK can make modifications at your request.

➤ **Describe your requirements**

FEDLINK has created an order **template** to capture your specific requirements like descriptions of services/products, types of ordering plans, and technical requirements. ([Click here for the template!](#)) Refer to orders from past years or current lists to complete the form. **Only complete those sections of the form that apply to your agency.** Email the completed form to FEDLINKbooks@loc.gov.

With an IAA in place, funds transferred, and your requirements on file, FEDLINK will compete your order and complete your procurement action within 90 days. FEDLINK identifies which vendors work best with your agency and its requirements, moves funds from your BZ pre-award account to the selected vendor(s) accounts. Once your vendors are selected, your designated ordering official will place your orders directly with your assigned vendors this year, with options to continue for up to four more years!

See the attached list to see the winners!

Have questions?

Please send an email to fedlinkbooks@loc.gov for assistance.

FEDLINK Book Vendors 2017

AD - Advanced Educational Products, Inc

Advanced Educational Products, Inc. (AEP) is a Veteran- Owned Small Business and Certified HUBZone Small Business Concern supplying book, CD & DVD titles - as well as Professional Cataloging. Their comprehensive suite of fulfillment services is tailored to meet the needs of institutional customers and their demanding ordering and reporting requirements. They also strive to provide superior customer service. To accomplish this, all AEP customers receive one-on-one assistance from a dedicated AEP Account Representative who is responsible for quoting, answering questions, processing claims and expediting orders. Their extensive Firm Order capabilities allow them to acquire just about any book-in-print from domestic and foreign publishers, plus countless out-of-print, rare and special order titles through a worldwide network of specialty dealers. AEP also offers a wide range of value-added products and customized services. These include comprehensive Technical Processing, Professional Cataloging, online access, EDI, and customized management reports. As a book, CD and DVD vendor, they go beyond just supplying readily available titles, and help you procure the hard-to-get items, and get them shelf-ready, at the right price.

BA - Baker & Taylor Books

Baker & Taylor Books (B&T) maintains an extensive inventory of current trade, trade paperback, mass market paperback, library binding, and short and net discount materials. B&T can also provide textbooks in hardcover and paperback. B&T collection development and management services are designed to assist in the building of library collections including: section lists, retrospective purchasing, opening data collections, do-not -exceed funds control, book leasing services, and school selection guides. B&T offers services to support mini-network library organizations in the administration of acquisitions activity. In addition to supplying books, Baker & Taylor offers an extensive collection of audiovisual materials under the current BOA. The "Booking Ahead Library Service" and the "Advance Reference Title Plan" are services provided as well as the Paperback and Audio Parade. OPTIONAL SERVICES: Physical and Technical Processing: B&T can supply shelf-ready processing of books. Customers can request catalog cards or MARC output with Dewey or LC call numbers and LC or Sears subject headings. B&T can supply circulation kits (cards, pockets, and labels), barcodes and cover-ups and reinforced bindings. Recently added B&TMARC Cataloging and Processing services for spoken word audio cassettes. Automated Order Control System: B&T offers a PC based system for order control, B&T Link. For FY2000, deleted "Approval Plans".

BD - Brodart

Brodart maintains an inventory of over 3 million titles from which it can supply trade, trade paperback, mass market paperback, publisher's library binding, single reinforced editions, short and net discount books in both English and Spanish languages. Books not in inventory are regularly ordered from the publishers. Brodart can provide shelf-ready processing including circulation kits, barcodes labels, theft detection, Mylar jacket and paperback reinforcement or conversion. Bibz.com, Brodart's online ordering tool, allows for enhanced online searching by title, author, and ISBN at no charge. In addition to books, Brodart offers several McNaughton(r) lease plans under the current FEDLINK BOA including Adult, Children's Hardcover, audiobound, Espanol, DVD and Paperback plans. Please contact the listed Brodart representative for specifics of their offerings.

MW - Midwest Library Service

Midwest Library Service's (MLS) specialties include the procurement and supply of current and retrospective books published or distributed in North America. MLS specializes in and maintains a current title inventory of university press publications and scientific/technical publications. MLS routinely accepts special orders for items from small and hard-to-locate publishers as well as books no longer in print. Customers can place orders through Midwest's web-based system, InterACQ, or by e-mail, fax, telephone, or mail. **OPTIONAL SERVICES:** MLS offers an approval plan with comprehensive coverage of university press publishing. Profiles are established based on subject (Library of Congress Classifications), non -subject, and publisher criteria. MLS offers Out-of-Print searching for books thought to be in print at the time of ordering as well as books known to be out-of-print. **PROCESSING:** Midwest can supply shelf-ready processed books. Cataloging data is available electronically, in card and label sets, or by CD-ROM. Cataloging is available with Dewey, LC, and NLM call numbers and LC, Sears, and NLM subject headings. Circulation kits (card, pocket, and labels), barcodes, and paperback pre-bindings in several different formats or paperback cover-ups are also available. MLS is a WorldCat Cataloging Partner. Midwest Library Service provides books, processing, and collection development services including firm order, approval plan, out-of-print, and standing order programs to academic, public, FEDLINK, and special libraries. InterACQ is Midwest's web-based acquisitions management and collection development system. Midwest is a WorldCat Cataloging Partner.

JL - MT Library Services dba Junior Library Guild

The Online Computer Library Center, Inc. (OCLC) is the largest international library network with over 54,000 members and more than 70 million bibliographic records. FEDLINK is the formal support network for federal libraries wishing to participate in OCLC. Through FEDLINK BOAs, federal libraries access OCLC for cataloging and interlibrary loan, OCLC reference services, and various options for group resource sharing and retrospective conversion.

UB - Proquest Books

ProQuest is a global supplier of professional, reference, technical, academic and scholarly-related books and related special services to more than 26,000 libraries in the government, academic and corporate sectors around the world. FEDLINK customers can turn to the ProQuest OASIS web-based platform for optimized book search, selection and acquisition. Via OASIS users not only enjoy access to one of the broadest curated print

and ebook title databases in the industry but also benefit from powerful search tools that help locate titles quickly and efficiently. OASIS users can order ebooks from a range of ebook platforms – aggregator platforms such as Ebook Central, EBL, ebrary, MyiLibrary, EBSCO, and a growing list of publisher platforms including UPSO, Wiley Online Library, Info-Sci, Taylor & Francis, CRCnetBase and World Scientific. ProQuest print book distribution centers in US and UK and a print partnership with INGRAM ensure efficient print order fulfillment via OASIS. In addition to the OASIS platform, OASIS users are provided support by a technical services team of experts to help streamline their print and electronic book workflow at no extra charge. Taking a consultative approach, this team offers the support needed for range of cataloguing including WorldCat Collection Manager, Generic, Derived, Custom, and Original MARC Records; physical processing; and optimized EDI ordering and invoicing workflows. The OASIS Collections Consultants at ProQuest work collaboratively with librarians to build book profiles - approvals, standing orders, new title slips, DDA - and plans that best meet a library's book collection goals and budgets. By combining their industry expertise with ProQuest technology and library input, collections consultants are able to recommend the right book acquisition models and workflows that help librarians build collections that are relevant for their patrons. Via ProQuest's newest ebook platform – ProQuest Ebook Central - FEDLINK customers gain access to a wide selection of authoritative, scholarly content combining the ebooks currently available on ebrary and EBL today including over 700,000 titles and 1,200 imprints from more than 650 publishers. On average, 100,000 newly published titles are added each year to. Ebook Central also provides an end-to-end patron experience that offers a modern, user-centered design and spans the breadth of patron's research needs, from discovery to reading to retrieval & sharing. In addition, Ebook Central's library acquisition & administration portal supports discovery, selection, acquisition, administration, and real-time usage and expenditure analytics.

LA - Recorded Books

Recorded Books Inc. is the largest independent producer of unabridged audiobooks for libraries and a distributor of many other audio/library products. Along with its subsidiaries W.F. Howes Ltd. (UK), Wavesound (AUS), Highbridge Audio and Tantor Media Inc., the company has produced, published, and holds the copyright to over 23,000 audio titles. Known for the highest standards in production quality and their award winning narrators, Recorded Books is the industry leader in the library market. The company has evolved with their library partners and now offers their content in electronic format (eBook, eAudio) through OneClickdigital and their RBDigital group. Please note that this FEDLINK BOA is for the acquisition of non-serial publications only, and eMagazines, databases, and other services are not included in this BOA.

MR - Rittenhouse Book Distributors

Rittenhouse is an aggregator for health science print and electronic content. They distribute product from more than 1,000 STM publishers. This content includes commercial publishers, university presses, and associations as well as site licensed digital content and e-books. Print product is comprised of books, numbered and unnumbered series, annual publications and dictionaries which are also available in alternative formats such as CDs, DVDs, videos and slide sets. Rittenhouse also offers a digital database of electronic ebooks, the R2 Digital Library. The R2 Digital Library offers access to resources in medicine, nursing and allied health from multiple publishers on a fully searchable web based platform. All of the Rittenhouse products, services and publishers can be viewed on their web site at www.rittenhouse.com. Rittenhouse will accept regular and rush orders via telephone, fax, US mail, email, and online through the Rittenhouse web site. OPTIONAL SERVICES: Approval Plan Service: The Rittenhouse Approval Plan Service is a customized program for new publications in specific categories and quantities based on the library's collection development profile. Core collection Update Program: The Rittenhouse Core Collection Update Program is a free collection development service that reviews the library's core collection, and provides a quote for all titles that can be updated with a subsequent edition or new volume in a series. Customers may access the Rittenhouse web site at <http://www.rittenhouse.com> to check stock and prices, place orders, track orders in process, send

electronic mail, and check approval plan titles. Please contact the Rittenhouse representative for specific details of their offerings.

RY - Student Books dba Reiter's

Reiter's is a women-owned bookstore located in the heart of Washington, DC, specializing in the sale of scientific, medical, legal, and other types of professional books. Since 1936, Reiter's has been a fixture in the professional community of the nation's capital. Reiter's client list includes scores of federal agencies. While Reiter's provides the same ordering conveniences as warehouse bookjobbers-- i.e., the ability to shop by phone, fax, email, or on-line-- Reiter's uniquely offers FEDLINK customers' the option of shopping in person! Our 7,500-square-foot retail store, in walking distance of many federal agencies, affords shoppers the opportunity to peruse more than 60,000 books on professional topics. Our primary sections are: Medicine, Business & Economics, Computers, Engineering, Life Sciences, Math & Statistics, Physical Sciences, Social Sciences, General Reference, Law & Legal Topics, Political Science, International Studies and World Trade. Within these specializations, we supply trade books, scholarly books, text books, university press publications, and multimedia materials. We offer more than 300,000 books on our website. FEDLINK customers, buying directly at the store, receive the same pricing and service benefits they would receive ordering by any other method. In addition, FEDLINK customers will receive the same benefits when shopping at Reiter's two affiliated stores: Washington Law & Professional Books, 1900 G Street, NW, Washington, DC 20006; and Reiter's at Johns Hopkins, Scholarly & Professional Books, 9605 Medical Center Drive, Rockville, MD, 20850. Reiter's is known for providing the best in knowledgeable personalized service. Our customer's call Reiter's "the librarian's friend". Instead of ordering books from many different publishers, fax your list and we'll take care of it all. We specialize in same-day availability. Please contact them to arrange a meeting with your dedicated account representative.

QT - Taped Editions

Taped Editions, Inc. is an audiobook distributor offering the widest variety of titles available in CD, Playaway and MP3 formats for purchase and lease from over 200 publishers.
